As we began a new season, we had many unanswered questions about our team. But some factors we knew: The Lady Wildcats will play hard, play clean, and play as a team! In other words, this group understood that they needed to build Lady Wildcat Chemistry. They understood Team Chemistry is a major factor that will determine if you win or lose on the court or succeed or fail on other aspects of life. This group really bought into what I wanted out of them and because of that, they worked extremely hard and gave 100% in each play. Thank you girls for competing every time you stepped on the court and never giving up! Coach Purcell.

8th grade basketball was a very exciting season, because we got to know each other more and we bonded more with Coach Purcell even though she pushed us to our limits, she made us work hard and we became better ATHLETES! The Athletes.

"Luis is such a pain in the neck. Hey, wait a minute, I'm Luis. No he's Luis. Hey, we're both a pain in the neck, but coach Kessler loves us.." Luis Cervantes and Luis Medina.

Heather Marrufo waving to all her fans.

First Race...September 6th...Country Day School, "Thrill of the Hill"

We were forced to put everyone in the car after losing the bus! We called Mr. Mendoza and he was able to contact the bus barn to locate the bus.

One race ended up being rained out...We all sat at the picnic tables waiting for them to officially call the race.

Luis Medina...We designated him honorary "Snack Boy" after he announced that he forgot his shoelaces and couldn't run! Coach Kessler
